

## SAUVIGNON BLANC 2022

### VINEYARD & VINTAGE

It is widely known that high quality wines originate from exceptional regions. The balance of ripeness and acidity as well as the interaction between aroma and flavor are largely determined by climate and terroir.

Last year we had the opportunity to begin a new partnership with La Lief, A woman-owned and operated winery at the southern-most edge of San Luis Obispo County. Here, there is a vineyard called Alamo Creek Ranch, located in a small, pristine valley nestled against the rugged terrain of the Los Padres National Forest. This Central Coast location where we grow our Sauvignon Blanc is known for its unique terroir which gives our wine its distinct character. Our 2022 vintage is the perfect balance of acidity and fruit and is sure to be a hit. The bright, crisp flavors of citrus and tropical fruit give way to a smooth finish.

### REGION & VARIETAL COMPOSITION

### TASTING & PAIRINGS

Our 2022 Sauvignon Blanc leads with floral and fruit-forward aromatics suggesting nuances of white peach, nectarine and lemon curd. That rich nose carries over to the palate, providing flavors of ripe apricots, exotic kiwi, juicy citrus and finishes with a fresh, cool minerality. This impeccable balance of acid and fruit will have you reaching for your glass again and again! Enjoy this wine with a variety of dishes from light summer salads to grilled seafood.
